

DataNab AiO8: Modbus 8 Channel Analog Input/Output Module

Inputs can be configured to read:

- 0-5VDC
- 0-20mA
- 10K Thermistor
- Dry Contacts

Outputs:

- 0-10VDC
- 200mA total
- Hand/Off/Auto Switch for each output

Technical Specs:

Resolution: 10 bit (0-1024)

Temp Range: 10-50C

Supply Volts: 12-24VAC @ 50-60Hz
12-36VDC

Power Consumption: max of 100mA @ 12VDC

Enclosure Material: Flame proof plastic

Enclosure Rating: IP31

Mounting: Standard Din Rail

Communication: Modbus485

Form Factor:

With connectors installed, unit is approximately:

4.5in x 4.5in x 1.7in
